RAM KUMAR MISHRA

er.ram.ku.mishra@gmail.com
Full Stack Software Engineer — Angular — Node.js — Docker — Playwright +91-8962916427
github.com/Rambo9408 linkedin.com/in/rammishra9408

Professional Summary

Full Stack Software Engineer with 2+ years of experience building scalable web applications using Angular, Node.js, and MySQL. Experienced in REST APIs, JWT/RBAC, CSRF protection, SSE, backend caching, Docker, CI/CD, Playwright E2E testing, and modular monolithic architecture. Proven track record of delivering secure, production-ready solutions and improving system performance.

Technical Skills

- **Languages:** TypeScript, JavaScript, SQL
- **Frontend:** Angular, RxJS, HTML, CSS, SCSS, Tailwind CSS, PrimeNG
- **Backend:** Node.js, Express.js, REST APIs, TypeORM, JWT Authentication, RBAC, CSRF Protection, Server-Sent Events (SSE), Backend Caching
- **Database:** MySQL, MongoDB
- **Testing:** Playwright, Vitest, E2E Testing, API Testing
- **DevOps:** Docker, CI/CD Pipelines
- **Tools:** Git, GitHub, Postman, Linux, Jira

Experience

- **Software Engineer** *June 2024 – Present*

  Arosys Technologies Pvt Ltd

  - Engineered 10+ full-stack modules for the GMATwise platform, improving user workflow efficiency by 25–30%.
  - Built secure REST APIs using JWT authentication, RBAC, and CSRF protection, reducing unauthorized access risks and strengthening application security across 10+ platform modules.
  - Optimized real-time notification delivery using SSE, eliminating polling overhead and improving notification delivery responsiveness.
  - Developed and maintained a Playwright-based End-to-End (E2E) automation framework covering critical user journeys, reducing manual regression effort by 60–70%.
  - Containerized applications using Docker and integrated CI/CD workflows, reducing release effort and improving deployment consistency across environments.
  - Implemented backend caching and query optimization strategies, reducing API response times by 20–25% and improving system scalability.
  - Contributed to a modular monolithic architecture supporting 10+ business modules, improving maintainability and feature development efficiency.

Projects

- **GMATwise Platform:** Developed a production-grade test preparation platform using Angular, Node.js, and MySQL. Designed role-based workflows, analytics-ready result processing, and scalable backend services supporting complex business operations.
- **Shopping Cart Application:** Built a full-stack e-commerce system with authentication, cart, and order workflows. Created REST APIs and a responsive UI to ensure a smooth user experience.
- **FirstLove Mobile App:** Built a cross-platform mobile application using Angular, Ionic, and Capacitor. Implemented a reusable component architecture, reducing feature development effort by 30%.

Education

- **PG Diploma in Advanced Computing** *2023–2024*
  CDAC, Bangalore
- **PG Diploma in Computer Applications** *2019*
  CV Raman University
- **B.E. in Electrical & Electronics Engineering** *2017*
  SSITM
